

CONTROL ROOMS SOLUTIONS

# EVIDENCE CAPTURE

The recorder for Control Rooms  
and Video walls

Innovative solutions for Air Traffic Management & Control Rooms

# UNEQUALLED PERFORMANCE AND PEACE OF MIND.

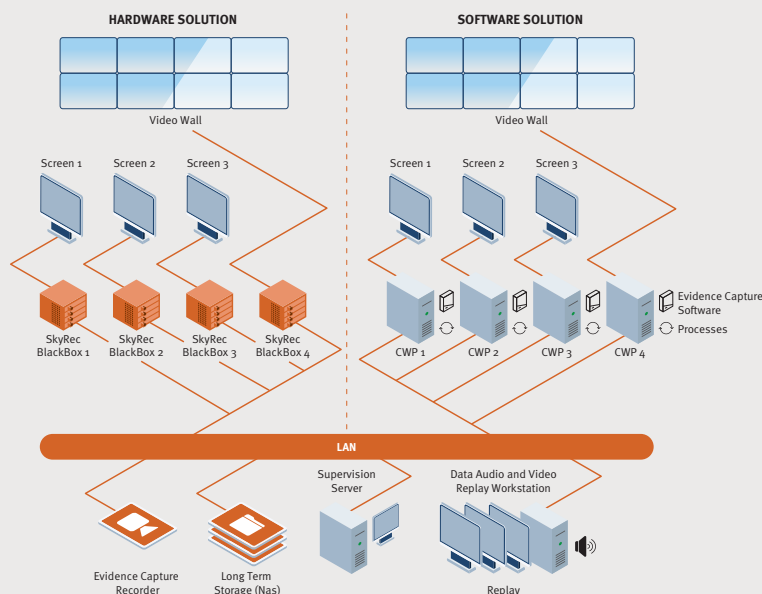

**Evidence Capture provides a unique solution to record video walls and staff operational environment in large control rooms. Captures high resolution video, serial and audio data.**

The screen capture is essential. It is the only way to see what's going on. It's time to add evidence capture. The role of Control Rooms sector has steadily increased year after year. Implementing a screen recording solution to capture the activity on agents' desktops and synchronize with their conversations is becoming essential in modern Control Rooms. This way, it's possible to reconstruct the actions that were taken and resolve incidents by replaying the exact recorded scenario.

- **Recording and Investigation Service**
- **A complete room recording solution**
- **Incidents investigation support**
- **Keeping high level of safety**

## BENEFITS

- ✓ **Captures what the agents' desktops display at any point in time**
- ✓ **Can be used for facilitating training**
- ✓ **Helps identifying possible malfunctions in applications**
- ✓ **Keep the system safe and secure operator's actions**

## FEATURES

- ✓ **Resolution up to 4K with lossless quality for CCTV content**
- ✓ **Choice of Hardware or Software solution**
- ✓ **Up to 8 screens per PC**
- ✓ **Up to 60fps**
- ✓ **Very low CPU and GPU usage**
- ✓ **Specific high performance Skysoft compression codec**
- ✓ **Synchronized with voice recording and all input device actions**
